

NIAGARA UNIVERSITY

NEW YORK • ONTARIO

ontario.niagara.edu

ISDF MASTER OF SCIENCE INFORMATION SECURITY AND DIGITAL FORENSICS

Lead when it matters most

Learn to protect computer systems and cyber networks from breaches, and learn to collect and recover information after a cyber threat attack or hardware malfunction. In this program, you will utilize professional applications in computer and mobile forensics, and will gain a technical understanding of network security, ethical hacking and privacy through hands-on training.

The program equips individuals with the knowledge necessary for the Certified Information Systems Security Management Professionals (CISSP) certification.

THE **POWER** TO **ACCELERATE**

Why Choose

Teachers become the coach of their students

ACADEMIC EXCELLENCE WITH REAL-WORLD RELEVANCE

Small class sizes create an engaging and personalized learning experience, enabling meaningful connections and professional networks.

Experience the **North American Advantage** with a values-based, bi-national degree taught by published and highly accomplished faculty, offering leading-edge programs.

Situated in the thriving north end of the **GTA**, our campus offers direct subway and bus access that connects you to Toronto's diverse business and community ecosystem.

THE **power** OF niagara

Founded in 1856 in New York, Niagara University has a proud legacy of educating students in the highest academic tradition, combining intellectual rigor with values-based learning that develops both mind and character.

For more than 40 years in the Greater Toronto Area (GTA), Niagara University has built its reputation through academic excellence and personal connection, establishing itself as a binational institution granting degrees recognized in both Canada and the United States.

Niagara's master's programs feature a comprehensive, applied curriculum that prepares graduates to lead with purpose and impact.

The newly expanded Vaughan Metropolitan Centre campus offers a vibrant learning community where innovation, engagement, and opportunity come together.
